glish manufacture or not. The McKinley tariff has not injured my trade in the least. The duty on the goods is about 75 per cent of their value. There is a tax of 4 1/2 cents per pound on the material and a tax of 60 per cent ad valorem on the shipment. This is an increase over the old tariff of about 25 per cent. Yet the fact remains that I, and many other tailors as well, can come over here under considerable expense, receive and fill orders for clothes and do a sufficiently large business to make it profitable. Our customers, of course, are only found among the very best of your people. While the McKinley tariff has not, I think, diminished the amount of West of England goods exported to this country, it has had the effect of shutting up numbers of Bradford factories which turned out the cheaper description of goods. Similar goods to these can be made in this country to give good work.

Mr. MacMurphy Gives His Reminiscences of the Famous Burchell Murder Case. Dugald MacMurphy, of Portland, Ore., was at the Anderson yesterday evening for night for Chicago. Mr. MacMurphy is a Canadian and was concerned with Lawyer Blacklock in defending Burchell for the murder of the young Englishman about a year ago. He since moved to Portland where he is the Secretary and attorney of the Snake River Transportation Company. He came to Pittsburgh to see James Rees & Co., in connection with business for his company. Speaking about Burchell Mr. MacMurphy said that he had had a fair trial, but handicapped his lawyers by withholding from them. He thought he was doing a very clever thing by keeping his own counsel, but he would have probably got off if his lawyers had known matters which afterward came to light. Mr. MacMurphy said that he and his confederate had undertaken the defense more out of sympathy for Burchell than for any motive. Mrs. Burchell was entirely innocent of any connection with the case. He understood also that the case was one of good family in England, her brother being B. B. Stephenson, general superintendent of the London Northwestern Railway.

Richmond Cashiers Must Know People Who Want to Buy Paper. "They don't know when they're well off down South," said Getty Stewart, a traveling man, at the Central Hotel last night. "Down in Richmond they have had an electric road in operation for the last three or four years, and it has performed, it is generally believed, to the satisfaction of all parties. Well, you'll hardly believe that it is to be done away with. Fact; some of the people living along the line complained that the noise of the cars, and they have ordered its removal, and removed it will be. "They are slow in Richmond," he continued. "I went into a bank there the other day to buy two drafts, one for \$12 and the other for \$25 to send to New York, putting down the money as I asked for them. "We can't sell you drafts," said the cashier. "Why not?" I asked surprised. "We don't know you," was the reply, "and the cashier of this business institution declined to sell me a couple of drafts because he didn't know me. They don't know the war is over down there yet."

THE PRESIDENT OF THE FEDERATION. An Ohio Man Suggested as Qualified to Succeed the Present Incumbent. John B. Roe was asked lately whom he regarded as the most likely man to run for the Presidency of the American Federation of Labor at Birmingham, Ala., in December. "A man about whom I have heard some talk recently," he said, "is John McBride, the country as an efficient, capable and shrewd man, honest to the cause of labor, and with the record of having done more for trade unionism than any other man in the country. I don't know any more fitting man, and I don't know any man on whom the great body of unions would coalesce. "But before McBride could be offered a nomination it is necessary the position should be made worthy his acceptance, and even then I am not sure he would take it."

THE MYSTERY OF PRINCE RUDOLF'S DEATH. Continued Mr. Pekar, "will never be revealed as long as Franz Josef lives. There is scarcely a doubt he was killed. The story lately published in a New York paper is about near the actual facts. At the time of his death the most conflicting reports were sent over the country, and the labored effort to build up a theory from the court as to the cause and attributing it to suicide was not accepted by the public as being the truth. Nobody said so openly, however. The Emperor knows the truth and will retain them. Hapsburg's sister was an exceedingly beautiful woman and the general impression is that the Prince was killed by the brother."

Mrs. Adah S. Thomas. As a most competent and successful teacher of singing we take pleasure in recommending Mrs. Adah S. Thomas to our readers. Mrs. Thomas occupies the highest rank among our resident vocalists, and is well known to the public by her success in numerous concerts of both classical and operatic music. In addition to this, however, Mrs. Thomas is eminently endowed with the three great requisites for a teacher: ability, tact and patience. Her success in her success in rapidly advancing, while thoroughly instructing, her pupils.

conductor. Moore was committed also by Magistrate McKenna for fast driving. JUDGE COLLIER yesterday granted a retail liquor license to William McKeen for No. 254 Butler street. The license had been held by Mr. Pitts, who became financially embarrassed, and the leasehold was bought by Mr. McKeen. Judge Collier held that the license could be granted without obtaining the consent of the former holder of it.

VERY COMPLIMENTARY.

Indorsements of Prominent People Give One of Pittsburgh's Local Institutions a Standing Second to None in Pennsylvania.—The New Methods of Utilizing the Different Forms of Electricity in Conjunction With Medicine Are Accomplishing Results Heretofore Un-known.

TO THE COMPETENCY OF THE ELECTROPATHIC INSTITUTE OF 507 PENN AVENUE.

"I have been a terrible sufferer, as have many others, from the after effects of a grippe, but my case took a different turn from that of any other that I have heard of." The speaker was Mr. Thomas F. Robinson, the well-known boat builder of this city, who lives on Lafayette street, Hazelwood, Twenty-third ward, of this city.

"After I began to recover from the disease I was attacked with facial neuralgia, and have suffered since such tortures as man seldom suffers from pain, continuous and almost crazing, in my face and head. I was also afflicted with lumbago, accompanied by its usual terrible pains and aches. "The constant strain upon me finally resulted in complete nervous prostration and insomnia, that."

"I was in this condition that I was induced to apply to the physicians of the Electropathic Institute, at No. 507 Penn avenue, this city. They examined me, and after a talk with them I placed myself in their hands for treatment. I was under treatment less than a week when I began to grow better, and the decided curative effects of their method became manifest, and I AM NOW COMPLETELY CURED.

"I can speak too highly of the physicians of the Pittsburgh Electropathic Institute and their strictly scientific method of curing diseases, and I want to say that all of their patients with whom I came in contact were greatly pleased with the rapid cures being made in their cases."

"I called on the physicians in charge, and after making a careful diagnosis of my case, pronounced it curable. The results have amply verified their verdict. My deafness, rheumatism, stomach trouble and nervous prostration have all disappeared. In fact, stating it briefly, I am cured."

"I can scarcely describe my sufferings since I was stricken with paralysis over three years ago," said Mrs. Mary J. Conroy, of No. 113 Lacombe street, Allegheny. "Everything I tried failed. As a last resort I concluded to try electrical treatment as applied by the physicians of the Electropathic Institute, 507 Penn avenue. The first treatment I received enabled me to lift my arm, so that I am now doing six months before. I improved gradually until now I can walk around unassisted. I unhesitatingly recommend these physicians and their methods."
